

A revolution in **comfort and ease** for treating sleep apnea

The Dream family offers innovative sleep therapy technology designed to give you the freedom to lie in bed, watch TV or read with nothing blocking your view, then doze off, roll over, and sleep on your stomach — all while treating your sleep apnea.

Comfort

From feel to function to airflow.

Remarkable ease

User-friendly interfaces.

User-driven designs

Guided by more than 700 interviews and surveys with patients, providers and clinicians.

You're in control

Stay motivated, get results.

Introducing
The Dream family

Inspired by your sleep

The Dream

We dream of sleep

At Philips Respironics, we know that good, sound sleep is vitally important at every age — to your work, your play, your physical and emotional well-being. That's why we designed the Dream family to help make treating your sleep apnea easy and comfortable. So you get the kind of sleep you need to help you feel more like yourself every day.

DreamStation

Natural. Comfortable. Sleep.

With easy-to-navigate menus, a sleek, compact design and quiet operation, DreamStation makes it simple to start, customise and continue your obstructive sleep apnea (OSA) therapy.

- › Controls and interface at the front of the unit for enhanced visibility on your nightstand.
- › Colorful, easy-to-use display with icon-based navigation and daily feedback.
- › A comprehensive suite of connectivity options available.

DreamWear

Like wearing nothing at all.

The open-face design provides superb comfort, allowing freedom of movement and the ability to choose your most comfortable sleep position. DreamWear is designed to be unlike any mask you've experienced.

- › Users rate DreamWear under the nose more comfortable, more stable, easier to use and more appealing than their prescribed mask!
- › Unique in-frame airflow and an innovative air tube connection at the top of the head.
- › Light, soft and flexible material.

†Internal assessment of 2015 competitive CPAP data comparing to ResMed Airsense10/Aircurve10 platform and Fisher & Paykel Icon series platform.

easy-to-use and comfortable Dream family.

today.

DreamMapper²

Take charge of your sleep.

As a mobile app and website, DreamMapper helps keep you motivated to take charge of treating your sleep apnea.

With DreamMapper you can:

- › See daily feedback on your therapy progress.
- › Set and track custom goals, and unlock achievements.
- › Find helpful informational videos and trouble-shooting guides to help you stay committed.
- › Receive notifications and reminders about your therapy.

²Data analysis of 2017 Philips sponsored patient preference trial (n=80). Prescribed masks include Resmed Swift FX and P10, F&P Opus and Pilairo, and Philips Nuance and Nuance Pro..
